

RABIA SAMAD AFRIDI

AI Engineer · Technical Project Lead · LLM & Automation

Dubai, UAE · +971 50 811 8657 · rabiasamad895@gmail.com · linkedin.com/in/rabia-s-3a225b163/

PROFESSIONAL SUMMARY

Results-driven AI Engineer and Technical Project Lead with 4+ years of experience delivering production-grade AI systems across healthcare, media, and dental sector. Deep expertise in LLMs, prompt engineering, RAG pipelines, AI voice agents, and end-to-end automation. Track record of reducing operational costs (80% news generation time reduction, automated appointment booking, 50% latency improvement) and leading cross-functional teams of up to 15. Holds MSc from NUST and 8 DeepLearning.AI certifications. Seeking remote-first roles in AI engineering, ML engineering, or technical product leadership.

TECHNICAL SKILLS

AI / ML: LLMs · RAG · Prompt Engineering · Agents · Fine-tuning · Computer Vision · TTS · Lip-sync Models

Frameworks & Libraries: LangChain · LangGraph · TensorFlow · PyTorch · CrewAI · Flask

Automation & Integrations: N8N · Zapier · VAPI · HeyGen · REST APIs · Dentally API

Cloud & DevOps: AWS EC2 · AWS S3 · Google Cloud · Google Play Store deployment

Languages: Python · SQL

Soft Skills: Technical Project Management · Agile/Scrum · Stakeholder Communication

WORK EXPERIENCE

Technical Project Lead · Smart Forum

May 2025 – Present

Project: Dentally Assist — AI Voice Agent for Dental Clinics

- Set the project plan, timelines, and goals. Managed a team of 9 people including developers, designers, QA, and DevOps.
- Built an AI voice agent that talks to patients and books their dental appointments using the Dentally API — no human needed for routine calls.
- Designed and delivered a real-time dashboard enabling human receptionists to monitor call logs and manage edge-case interactions.

Project: Curio — Mobile App for Autism Early Detection

- Awarded Star Performer Award (Q4 2025) for outstanding delivery on a high-impact healthcare product.
- Led an agile team of 15 (Developers, Designers, QA, DevOps, Domain Experts) from concept through PlayStore launch.
- Collaborated with psychologists and therapists to ensure clinical accuracy; integrated RAG-based chatbot for personalised parental guidance.
- Built AI-powered therapy modules and interactive assessment tools for autism early detection.
- Launched on Google Play Store with 500+ downloads. iOS version is in progress.

AI Engineer · Smart Forum

August 2023 – May 2025

- Built an AI platform for a media company that uses prompt engineering to automatically write news articles and scripts in a consistent, professional news-anchor style.
- Improved a lip-sync model by collecting and preparing training data — the output quality went up 60% and it became 50% faster.
- Set up automated workflows using N8N and Zapier so articles get published to client websites with one click.
- The platform is live and has cut news production time by 80%.

RESEARCH

Liver Cancer Detection Using Neural Networks

- Built a system to detect early-stage liver cancer using an ultrasonic sensor and a neural network model.

Hand Detection from Images

- Used computer vision techniques (Hough Transform and Harris/SIFT) to detect and locate hands in images.

CERTIFICATIONS

- Prompt Engineering with Llama 2 & 3 — DeepLearning.AI
- Functions, Tools and Agents with LangChain — DeepLearning.AI
- LangChain Chat with Your Data — DeepLearning.AI
- Generative AI with Large Language Models — DeepLearning.AI
- Introducing Multimodal Llama 3.2 — DeepLearning.AI
- LangChain for LLM Application Development — DeepLearning.AI
- Multi AI Agent Systems with CrewAI — CrewAI
- Introduction to AI & Machine Learning on Google Cloud — Google Cloud Training

EDUCATION

Master of Science — Computer Science

Sep 2021 – Jan 2024

National University of Sciences & Technology (NUST), Pakistan

Relevant coursework: Machine Learning, Deep Learning, Computer Vision, Mobile Robotics, Stochastic Systems

Bachelor of Science — Computer Science

Aug 2015 – Jun 2019

National University of Computer and Emerging Sciences (FAST-NUCES), Pakistan

Relevant coursework: Embedded Systems, Digital Signal Processing, Data Communications, Robotics, Computer Architecture

AWARDS

- Star Performer Award, Q4 2025 — Smart Forum
- Dean's List of Honor — Spring 2018, Fall 2018 and Spring 2019
- Bronze Medal for Academic Excellence — Fall 2017
